PRODUCT INFORMATION BULLETIN
FIFRA Section 2(ee) Recommendation

PERMETHRIN	GROUP	3A	INSECTICIDE

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF FLORIDA

PROZAP®
Insectrin 1% Pour-On XTRA

EPA Reg. No. 47000-151

This FIFRA Section 2(ee) recommendation expires December 31, 2030

New World Screwworm (*Cochliomyia hominivorax*)

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
This product bulletin recommendation is permitted under FIFRA 2(ee) and has not been submitted to or approved by EPA.
FIFRA Section 2(ee) permits "applying a pesticide to a target pest not specified on the label if it is to a site on the label." The following is a Chem-Tech, Ltd. Authorized 2(ee) recommendation.

This product has not been tested specifically for efficacy against New World screwworm (NWS, adults or larvae); however, applied as part of an integrated pest management plan, it may have preventative action against adult NWS (flies).
No single therapy should be assumed to be 100% effective. Implementation of a multi-faceted program is considered critical.

IMPORTANT
Before using this product, read and carefully follow all directions for use, restrictions, and precautionary statements on the EPA-registered container label. Refer to the container label for complete instructions. Refer to the container label for complete use instructions for Prozap Insectrin 1% Pour-on XTRA. Always read and follow all label directions.

GENERAL DIRECTIONS
Prozap Insectrin 1% Pour-on XTRA may be used to aid in the prevention of New World Screwworm (*Cochliomyia hominivorax)* on cattle/livestock.

Follow all applicable use directions, precautions, and limitations on the EPA-registered container label.

THIS 2(ee) RECOMMENDATION MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.
