

Detectable Needles

D3™X Needles

Product Numbers: See chart on back

Key Features & Benefits

Dual Detection

D3™X needles are Neogen's patent pending dual-detection needles featuring our trusted detectable metal alloy and newly developed highly visible extraction collar. Made from the same proprietary metal alloy, D3X needles are up to 6 times more detectable than regular stainless steel needles and allows needle fragments to be detected at line speed using X-ray or magnetic technology. The extraction collar is designed to prevent a broken needle from submerging into the skin of the animal. With an easy to grip extraction collar adhered to the needle, this allows needle removal to happen immediately following a broken needle. The extraction collar is highly visible and recognizable so it can be seen in all lighting conditions. The collar is embossed with an "X" to further identify the product as a D3X needle.

Durability

D3X Needles have thick-walled cannulas, which are crimped and pressed into sturdy, aluminum hubs. These stronger sidewalls increase load strength and decrease bending and breaking more than 6-fold over some conventional needles. The needle tips stay sharper longer and makes D3X needles the superior option for production needle selection.

Dependability

Neogen has been the trusted manufacturer for production farmers for the past 20 years. D3X needles have ultra-sharp, tri-beveled tips that allows for easier penetration into the animal. The sharpness of the needle increases the possible number of injections per needle and reduces the risk of injection site abscesses while decreasing stress on the animal while working.

Packaging

D3X Needles are packed in trademarked red, color coded cartridges for safety and convenience while transporting. Cartridges are tamper evident and ISO color coded for easy gauge and length recognition. D3X needles have thick walled detectable cannulas and hubs. D3X Needles are packaged 100 per box.

Presentation

Product Number	Product Description
9461	NDL D3X 14G x 5/8" Detectable HP 100/bx
9456	NDL D3X 14G x 1" Detectable HP 100/bx
9448	NDL D3X 14G x 1.5" Detectable HP 100/bx
9459	NDL D3X 16G x 1/2" Detectable HP 100/bx
9446	NDL D3X 16G x 3/4" Detectable HP 100/bx
9445	NDL D3X 16G x 5/8" Detectable HP 100/bx
9449	NDL D3X 16G x 1" Detectable HP 100/bx
9447	NDL D3X 16G x 1.5" Detectable HP 100/bx
9452	NDL D3X 18G x 1/2" Detectable HP 100/bx
9450	NDL D3X 18G x 3/4" Detectable HP 100/bx
9451	NDL D3X 18G x 5/8" Detectable HP 100/bx
9453	NDL D3X 18G x 1" Detectable HP 100/bx
9454	NDL D3X 18G x 1.5" Detectable HP 100/bx
9444	NDL D3X 20G x 1/2" Detectable HP 100/bx
9457	NDL D3X 20G x 1" Detectable HP 100/bx
9458	NDL D3X 20G x 1.5" Detectable HP 100/bx
