CHANGE NOTIFICATION

Product(s) Affected:

SKU/Part Number	Description	Effective Date
700006920/6482 Petrifilm <i>Bacillus cereus</i> Count Plates, 50 ct. 700006921/6483 Petrifilm <i>Bacillus cereus</i> Count Plates, 500 ct.	Updated Validation Approval Number	June 5, 2025

Dear Valued Neogen Customer,

Neogen® is proud to share that the *Bacillus cereus* plate that was recently released in December has now received MicroVal Approval!

Correction Notice:

Please note that the previously communicated certificate number was incorrect. The correct **MicroVal certificate number is 2024LR132**.

MicroVal Certification

MicroVal certificate number 2024LR132 in compliance with ISO 16140-2 in comparison to ISO 7932

Scope of the Validation:

Broad range of foods and animal feed

Incubation: Incubate Petrifilm BC Plates 20-24 hours at 30.0°C ± 1.0°C.

This achievement reflects Neogen's commitment to continuous improvement and adherence to regulatory standards, ensuring we provide the best solutions for your testing needs. If you have any questions or would like more details on this validation, please feel free to reach out to your local representative. Thank you for your continued trust in Neogen. Sincerely,

Jason Kircos
