

Petrifilm™

3M Food Safety Lab Automation

Supports a wide assortment of food types

Automated reporting helps users turn results into insights with easy to use software*

Enumeration in
6
seconds
or less

Productivity. Advanced.

3M™ Petrifilm™ Plate Reader Advanced

There's no slowing down with automated plate enumeration and advanced reporting capabilities of the 3M™ Petrifilm™ Plate Reader Advanced. It can help you save time, improve productivity and capacity.

It's time—upgrade to advanced testing at [3M.com/LabAutomation](https://www.3m.com/LabAutomation)

*Computer not included.

Advancing the efficiency of food safety.

Automate the imaging, enumeration and storage of results of 3M™ Petrifilm™ Plate tests.

- LED bar indicates reader status
- Designed to be easy to clean and maintain
- Fixed artificial intelligence (AI) networks to enumerate 3M™ Petrifilm™ Plates
- Reads 10 barcode symbologies

Productive

Improve laboratory efficiency in a space saving design

Plate Enumeration in 6 seconds or less—up to 900 plates per hour

Proficient

Standardized technology and easy to use software

Accurate colony counting

Proactive

Software stores results and offers data analytics

Automated Reports and Data Trending for Actionable Insights

For more details on colony counting accuracy, read the comparison technical bulletin.
