

Trusted Food Testing Solutions, Now Easier Than Ever

Introducing the new Liquid Ready™ Range from Megazyme® by Neogen®

Neogen is a trusted leader in developing cutting-edge analytical solutions for the food industry. Now, with our new Megazyme Liquid Ready Range, we're taking innovation to the next level — offering optimised ease of use, efficiency, and accuracy in food and beverage quality testing. Whether you're testing your finished goods for key quality attributes or monitoring your processes, our products deliver consistent, reliable results with minimal effort.

Liquid Ready Range: Testing Simplified

Experience the Next Generation of Food Analysis

Designed to streamline workflows and eliminate unnecessary preparation steps — our Liquid Ready range provides a simple, ready-to-use solution for testing key quality analytes in the food and beverage industries.

Our Liquid Ready range is designed for exceptional workflow flexibility — seamlessly integrating into both manual and automated assay formats to meet the specific needs of your laboratory.

Key Benefits

- Ready-to-use reagents meaning no preparation, less variability, and faster results
- Reduced pipetting steps to minimise errors and enhance precision
- Standardised storage and assay design to increase usability and decrease error
- Amenable to both manual and automatable formats
- Automated result calculation with our Mega-Calc™ results calculator, eliminating manual effort and helping to ensure accuracy
- Supported by experienced scientists, offering expert technical support and tailored solutions

Product Description	SKU	Ref. Code
L-Malic Acid Assay Kit (Liquid Ready)	700007622	K-LMLQR
D-Fructose/D-Glucose Assay Kit (Liquid Ready)	700007621	K-FGLQR
Ammonia Assay Kit (Liquid Ready)	700007403	K-AMIARLQ
D-Glucose Assay Kit (Liquid Ready)	700007404	K-GLULQR
Acetic Acid Assay Kit (Liquid Ready)	700007708	K-ACETLQ
Ethanol Assay Kit (Liquid Ready)	700007710	K-ETOHQLQ
L-Lactic Acid Assay Kit (Liquid Ready)	700007711	K-LATELQ
D-Lactic Acid Assay Kit (Liquid Ready)	700007709	K-DATELQ

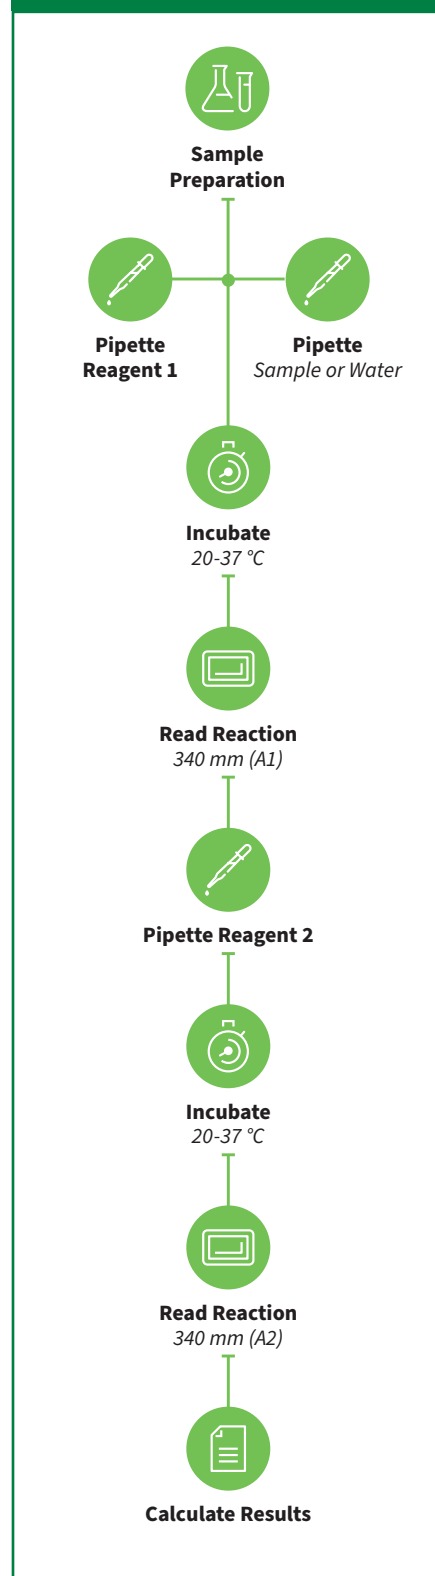

In addition to our new Liquid Ready range, we continue to offer our trusted traditional format test kits known for their accuracy and reliability. Please note our test kit selection also includes other liquid format products, which remain an important part of our offerings. While these products deliver proven performance across applications, they do not share all the key features described herein.
